

外籍人才創新創業培訓計畫

The Global Talent Entrepreneurship Program

申請表 Application Form

資訊 Information	
創業團隊名稱 Name of the Entrepreneurial Team :	ProQuantify
學校系所 School & Major :	National Taiwan University of Science and Technology Department of Industrial Management Graduate Institute of Cross-disciplinary AI Technology
團隊聯絡人 Contact Person :	1. Risman Gustiana Wardana 2. Ahmad Habibulloh
手機 Mobile :	1. +886971309234 2. +886966834266
E-mail :	m11401853@mail.ntust.edu.tw m11452805@mail.ntust.edu.tw
進駐資格 Qualification for Admission	
資格類別 Applicant's Category	☒ 具創新創意之技術、服務或營運模式團隊 Team with innovative or creative technologies, services or business models ☐ 本校入圍教育部「大專畢業生創業服務計畫」第一階段團隊 Team from NTUST that has been shortlisted into the first phase of the Ministry of Education's U-start program ☐ 本校「校園創新創業競賽」獲獎團隊 Team from NTUST that has been awarded at the Campus Startup Competition ☐ 其他 Others: _____
輔導需求 Mentorship Needs	
進駐後希望接受輔導項目 Mentorship Services that the Team Wishes to Receive After Admission	☒ 技術支援 Technical Support ☒ 經營管理諮詢 Consultation on Operation and Management ☒ 市場策略規劃 Market Strategy Planning ☒ 業務推廣媒合 Business Promotion and Matchmaking ☐ 政府資源申請 Application for Government Resources ☐ 其他 Others: _____
是否已成立公司 Has the Team Established a Company?	☐ 有，公司名稱 Yes—Company Name : _____ ☒ 沒有 No

是否曾有申請過政府 相關計畫 Has the Team Applied for Related Government Programs?	☐ 有，政府計畫名稱 Yes—Government Program Name: ☒ 沒有 No
獲獎紀錄或參與相關創業 競賽活動、及課程紀錄 Awards or Records of Participation in Startup Competitions or Courses	N/A
為什麼想申請加入本計畫 Why do you want to apply to join this program?	Having spent years in the industrial trenches in AI and intelligent manufacturing we have seen where SME machine shops lose their competitive leads. The bottleneck was not about production, but secondary aspect about manual translation of technical drawings into procurement data that wastes 30% of their week on analyzing. This program represents a milestone in our personal development by moving beyond academic research to embrace the "fail-fast, learn-faster" entrepreneurial mentality required to navigate a dynamic industrial landscape. Here, we are not just deploying models but to take a calculated risk to disrupt the inefficient industrial problem that we both experienced firsthand. Our journey is about more than just a product, it is about the resilience to transform years of industrial and academic experience into a scalable venture, proving that the backbone of global manufacturing deserves a digital future that is as practical as it is powerful to support manufacturing SMEs achieving rapid growth by service advancement and optimization
如何得知本計畫 How did you hear about this program?	As an international student at NTUST, we first learned about the Global Talent Entrepreneur Program (GTEP) through an official university announcement. GTEP stood out as the only program specifically designed to help global talents in navigating the transition process from technical researchers to market-driven founders. This program represents the perfect ecosystem to validate our concept and scale from an industrial prototype into a solution that directly addresses the digital gap in the SME machinery sector.
